Challenge

Ergonomics and Safety in the Workplace

The greatest challenge for Emil Frey AG was to improve ergonomics and workplace safety.

The objective was to optimize both the physical and aesthetic aspects of the work environment, creating a more productive and pleasant atmosphere for employees.

Solution

More Than Just New Furniture

The approach was straightforward: new furniture and better workplace design. However, it was not just about replacing old office furnishings, but also about creating an environment that prioritizes ergonomics and workplace safety.

For the realization of this vision, Emil Frey AG closely collaborated with Schäfer Shop. The focus was on individual needs and creating workplaces that are both functional and aesthetically pleasing.

The consultancy provided by Schäfer Shop played a crucial role in this process.
